

Have you heard about Quilted Northern giant rolls?

I live with a husband and two kids. None of them know how to change a roll of toilet paper.

That's why I like Quilted Northern's Giant Rolls.

Not only does Quilted Northern have two layers of super-soft tissue that don't contain any perfume or dye, but with 440 sheets on each roll, it's **2½ times** the size of a regular roll!

That means you-know-who doesn't "come up short" nearly as often as I used to.

Quilted Northern Giant Rolls.

More softness. More absorbency.

And if you're like me, just more.
